The Sightmark Solitude 10x42LRF-A Laser Range Finding Binocular features integrated laser range finding capabilities to provide hunters with yet another distinct advantage. Delivering precision accuracy up to 1,200 yards, these binoculars feature simplistic two button operation and a clear LCD display that does not wash out in sunlight. The 10x42LRF-A accounts for angle measurements to calculate the true horizontal distance for uphill and downhill shooting. Sightmark binoculars boast a rugged, lightweight, rubber-armored body that are nitrogen-filled and O-ring sealed, making them waterproof and fogproof.
