- Pressure switch
- Recoil resistant
- Type II mil-spec anodizing
- Weapons mount
- Waterproof

### INCLUDED

- 3 Filters
- CR123A batteries x4
- Pressure Pad, and Weapon mount

The **Sightmark H840 Tactical Flashlight** has three high intensity 280 lumen Cree® LED to provide 840 lumens of light for the most difficult shots or furthest point in the dark of night. The H840 Triple Duty Flashlight is constructed with aircraft grade aluminum for durability and protection against corrosion.

The Sightmark H840 Tactical Flashlight is equipped with a weapon mount, push on/off button and pressure pad and three color lens filters. Green filters assist in map reading, while red filters help to preserve night vision and assist with varmint hunting, so hunters can avoid being detected by their prey. Blue filters are also used by hunters and assist in illuminating blood trails. Sightmark-Make Your Mark!
