WEIGHT

Small/Medium: 1.27 lbs (0.58 kg)

Large: 1.44 lbs (0.66 kg)

Extra Large: 1.52 lbs (0.69 kg)

M-216™ COUNTERWEIGHT KIT SOLD SEPARATELY

SHELL ASSEMBLY

- › Machined aluminum Wilcox® shroud for mounting NODs, headlamps or cameras
- › Hybrid Shell Design: ABS/PC copolymer hard front shell provides reinforcement for mounted accessories while in-mold PC rear shell reduces weight
- › 14 Total Vents: Eight crown (adjustable), two front (passive open), four rear (fixed open) for maximum cooling during high exertion activities
- › Eight adjustable crown vents with three positions (open, half open and closed) to accommodate both warm and cold conditions
- › Above-goggle vent channels draw air through the helmet to the rear exhaust ports to reduce goggle fogging
- › Integrated goggle strap retention
- › Forward mounting position of the rail directly interfaces with included Princeton Tec® Switch MPLS or Switch Rail light to provide an extremely low profile, fully integrated task light
- › Open area on the crown allows for mounting of cameras and beacon lights, including the MOHOC® military-optimized camera and Core Survival HEL-STAR 6® multi-function light

LINER SYSTEM

- › Lightweight EPS impact liner with a removable and washable comfort liner
- › Meets the impact attenuation requirements of both ASTM F2040-18 and BS EN 1077:2007 Class B
- › Removable ear padding specifically designed to be comfortable while using in-ear communication systems and includes a pocket for drop-in audio device compatibility

RETENTION

- › Integrated Boa® Fit System for optimized stability and fit with one-handed quick release
- › Under the chinstrap utilizes Fidlock® magnetic buckle closure for one-handed operation even while wearing gloves
- › Removable chin cup for more stable fit when wearing NODs

AVAILABLE ACCESSORIES

M-216™ COUNTERWEIGHT KIT

Low-profile 1 lb counterweight kit to balance NODs; designed to fit seamlessly under goggle straps

EXF BALACLAVA

Formfitting design with stretch fabric that covers the head, face and neck and is optimized for use while wearing a helmet
