

7x24 mm Laser Rangefinder

1700 yd (game)

WINCHESTER® SUPREME® LASER RANGEFINDER	7x24 mm
MAGNIFICATION	7X
OBJECTIVE LENS DIAMETER	24 mm
OCULAR LENS DIAMETER	14 mm
MINIMUM RANGE	5 Y
MAX REFLECTIVE RANGE	3000 Y
RANGE (BUILDING)	1700 Y
RANGE (TREE)	1200 Y
RANGE (DEER)	1000 Y
INCLINOMETER	± 60°
BATTERY TYPE	CR2
DISPLAY	RED OLED, 7 Brightness Settings
TARGETING MODES	Normal, First, Last
RANGING MODES	HCD, LOS
SIZE	4.49"x1.47"x2.98"
WEIGHT	6.17 oz with battery / 190 g
EYE RELIEF	14 mm
ANGULAR FIELD OF VIEW	6.5°
LINEAR FIELD OF VIEW	114 m @ 1000 m, 114 y @ 1000 y
IP RATING	IPX4
MATERIAL	PPS, PC+ABS, Rubber, Optical Glass

When your hunt demands precise ranging over vast distances, Winchester Optics laser rangefinders deliver the performance and durability needed in the field. The Winchester Ranger Rider HD3000 laser rangefinder offers a maximum range of 3,000 yards, with 1,500 yards on game.

Featuring 7x magnification and an HD optical system, it provides enhanced clarity and detail for spotting game at long distances. The red OLED display ensures visibility in low light conditions, while three target modes (Normal, First, and Last) and two ranging modes (HCD and LOS) adapt to any hunting environment.

Key Features

- » Maximum Range 2,400 yards
- » 7x Magnification
- » Coated HD Optics
- » 100% Waterproof Rubber Armor Housing
- » Three Target Modes
- » Wrist strap lanyard, padded carrying case, lens cleaning cloth, and one CR2 battery.
